## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 5 and 7-9 are objected to because of the following informalities: Claims 5 and 7 recite an overrun value of "3,5". For examining purposes it is assumed that the value is --3.5— Claim 8 recites a concentration of between 0,3 and 1,2% for the emulsifier. For examining purposes it is assumed that the concentration should state between 0.3 and 1.2%. Claim 9 recites a concentration for a stabilizing agent between 1,2 and 2,5%. For examining purposes it is assumed that the concentration should state between 1.2 and 2.5%. Appropriate correction is required.
2. Claim 12 recites the word --whipping-- is misspelled as "wipping" in line 2. Appropriate correction is required.
3. Claim 14 is objected to because it recites, "use of a non- non- dairy whipping cream." The word "non" was typed twice. Appropriate correction is required.
4. Claims 8-15 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only--, and/or--, cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Art Unit: 1761

6. Claims 1, 3, and 7 and their dependent claims are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims refer back to tables 4 and 5, that could have its contents changed during prosecution and therefore, the metes and bounds of the claims would never be met.

7. Claim 14 provides for the use of a non-dairy whipping cream, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 14 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

### ***Claim Rejections - 35 USC § 102***

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1761

Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Leshik et al (U.S. Pat. No. 6,117,473). Leshik et al disclose refrigerator-stable, non-dairy foam having an overrun of 50-350% (abstract), which encompasses applicants recited level.
